closes #9678

Merge branch '9678-container-request-log-tab'

History

#1 - 07/29/2016 07:28 PM - Radhika Chippada

When I go to a container_request's Log tab, I see an empty "Recent logs" area. However, if I were to click on it's container link and go to the Log tab for that, I see logs in there. The container request in this case should show the container's logs instead of a empty area?
